

SECRETARY FOLGER is reported as at his home seriously ill.

WEEDIN of the Florence Enterprise is a candidate for council from Pinal county on the Democratic ticket. There might be worse Democrats than Weed in there.

BEN BUTLER seems to have the inside track on Cleveland and the possibilities are, will poll more Democratic votes at the November election.

It is now thought that Tombstone will soon be restored to her former business condition, by the opening up of her mining business generally since the obstructing Miners' Union has disbanded.

JUDGE WALLACE of New York has decided that the Texas Pacific road must pay interest in cash on its income and land grant bonds. This decision will involve the outlay of \$800,000 by that institution.

The Boston Evangelist and the Boston Evangelist have turned their back upon their false God, Cleveland, and declared that they have thoroughly investigated him and can no longer support him.

The Epitaph thinks Col. Dally among the best selections the Republican party can make, for Delegate to Congress, but thinks Mr. Stebbins the coming man, all the same, if he can be induced to run.

The Cochise Democracy seem to have some sort of internal disorder and act very much like a boy suffled with green cucumbers. A whole day was not sufficient for them to get a permanent organization in their convention.

A grand hunt is likely to be inaugurated for the recovery of missing coin placed in the hands of certain ex-federal officials who have proved to have a "wonderfully taking way" in the matter of finances that never belonged to them. It is at least to be made to disgorge.

The Republicans of New Mexico are badly split up, and the convention lately held at Santa Fe, split wide open, thirty-nine members withdrawing, leaving fifty-two. Both parties organized and made nominations. Prince was nominated by one faction and Reynerson by the other for Delegates to Congress.

A solution of bi-chloride of mercury is said to be one of the best disinfectants in existence. It is a germicide, cheap, and especially effective in case of cholera which is transmitted by a germ.

This solution is readily made by dissolving any quantity of mercury with an equal quantity of common salt, in water, one ounce of the mixture to eight gallons of water.

GEN. BUTLER says that three years ago there were not forty Democrats in Massachusetts who knew that such a man as Grover Cleveland walked the earth. This point is well taken. The people of this country have too much good sense to elect such a man as their chief magistrate, over a statesman who is known in every household in the land.—Ez

PRESIDENT ARTHUR seems to be entirely uninterested in the present political campaign, and possibly he has reason for his indifference. When a man's ambition is nipped in the bud, so rudely as was his, he needs must be preoccupied by his inner self for a considerable period of time thereafter, and consequently has no time to attend to external affairs, fishing excepted.

POLITICAL factions sometimes run things to such extremes that they lower political emulation to the condition of petty personalities and often do great injury to their party and even to the whole community by allowing the themselves to advocate men and measures that in the cooler consideration of such matters they would scorn to find themselves taking a part in. No man can take a hand in the dirty work of politics without displaying himself afterward if he has any self-respect, whatever.

THE matter of making the treasurer of a county which was advocated two years ago through these columns and other Territorial papers is already making its appearance in some of our exchanges and will doubtless

form an important element for consideration in the present campaign, and during the coming session of the legislature.

The fact that the sheriff receives five per cent of tax for collecting them and the treasurer three per cent for receiving them from the sheriff has attracted general attention, and the proposition is that the treasurer of a county receives enough fees to do the collecting and thus save to the people the 5 per cent which now goes to the sheriff. Let our county convention look to this matter in the choice of their representatives to the legislature if they would reduce the burdensome taxation that is now squeezing the very life out of our farmers and other business men.

ON A FAST TRAIN.

Fred Glover, who so brutally murdered his mistress, Friday morning, is liable to be railroaded right to the place where he belongs, and the sooner he gets there the better for the community. From the Prescott Journal we clip the following: "Court reconvened this afternoon at three o'clock, and the special grand jury submitted their report in the case of the killing of Jennie Clark, finding an indictment for murder against Fred Glover. Court then adjourned until 9 o'clock Monday morning, when Glover will be brought before the court and arraigned. The trial jury in the case has been summoned to meet on Wednesday, at ten o'clock, when the trial will be commenced.

THERE is great hope of a nation when it begins to demand from its officials moral and social purity. The thought of a man occupying the presidential chair of a nation of 60,000,000 of people—of a man at the head of the grandest, most powerful and progressive nations on the face of the earth, the first nation among all civilized nations—whose private character is known to the world to be that of a libertine, a lecherous and heartless moral and social blotch on the fair picture of our nation's purity, ought to be enough to cause American citizens to stop and think for a moment in the morning rush of political strife. When there is danger of such a national disgrace in the eyes of all the nations in the world, of such an outrage upon all that tends to make us respected abroad and strong in our official functions at home and of all that makes us respect ourselves and commands for us the respect of others—when there is danger to these elements of our strength and honor it is time for the matter of "party" to be laid aside and the good men of all parties unite in preserving our nation's honor and thereby the honor of our wives, sisters, mothers and daughters, for to how low a level must the morals of that nation sink whose leader and head is a libertine and how soon will it be before it will reflect upon the mothers, sisters, wives and daughters of a nation.

ARIZONA'S EXHIBIT.

The Albuquerque Journal has a Talk with F. M. Murphy.

The Journal man had known for some days that Mr. F. M. Murphy, the commissioner for the Territory of Arizona to the exposition at New Orleans, was registered at the Armijo House, but the force of circumstances had kept the aforesaid reporter from interviewing him until a late hour yesterday.

"What are you doing in Albuquerque?" queried the pencil pusher. "Up to the present time I have been waiting for certain letters and documents from Prescott, as well as being on the lookout for Governor Tritle of our territory," answered the urbane and popular commissioner.

"Why the Governor passed through here yesterday," said the reporter.

"I have just discovered that fact myself and now I intend to leave your city for the south at 6:10 this evening. I am going to the southern part of Arizona to appoint a number of county commissioners."

"Has either the Territorial authorities or the county officials made any appropriations as yet to carry forward your work?"

"Not a cent has yet been appropriated, but I shall go right along asking the individuals and communities to furnish the necessary funds for their own exhibits and then when the legislature meets again I shall go before that body and ask that every man be reimbursed."

"How about your own personal expenses?" put in the newspaper man.

"Oh, well, I shall have to follow the same course as the others. I am going to New Orleans before my return and from there to Chicago, where Arizona people have an exhibit weighing about twenty tons sent to Chicago for their exposition."

This exhibit I shall box up and forward to New Orleans."

"Have you been in different portions of the Territory?"

"Yes, indeed; I have just returned from the Salt River valley and the people in that district are fully alive to their own interests and will of course make a full display. I have also been through Mohave county and the miners in that district will send an exhibit that will represent their interests. I am busy just at present with our agricultural exhibit and hope to be able to make a full display, although the opening of the exhibition is pretty late in the season for our section of the country."

The reporter left Mr. Murphy feeling confident that Arizona had been extremely fortunate in its choice of a commissioner, and that in spite of the fact that their representative must advance even his own expenses, the Territory's interests would not be allowed to suffer.

TELEGRAPHIC.

KICKED TO DEATH.

Brutal Murder of a Courtesan in Prescott.

Special to the Herald.

PRESCOTT, Aug. 29.—Miss Jennie Clark, one of the demi-monde, of this city, was brutally kicked to death by one Fred Glover, a gambler, at about three o'clock this morning. The affair occurred in the Palace Saloon, and about twenty persons were present and witnessed the revolting spectacle and horrid inhumanity of the murderer who will be fortunate if he escapes lynching.

LETTER FROM HENDRICKS.

DURHAM, Aug. 27.—The Herald will publish tomorrow the following letter from Governor Hendricks, recently received by a citizen of this city in relation to an inquiry concerning rumors affecting a change in the national Democratic ticket consequent upon reports against Governor Cleveland.

INDIANAPOLIS, Aug. 24, 1884.

I have your letter of the 9th inst. I cannot consider with favor your suggestions of a change in the national ticket. The action of the convention cannot now be reconsidered, but must stand, and I think it ought to stand. I do not agree with you in your opinion that the result is favorable to the success of our ticket. The Cleveland scandal will not have weight with the people and ought not to have weight. It is unworthy of the national contest. Three times Governor Cleveland has stood the test of a popular canvass, once for the office of mayor of his own city. And each time he received the endorsement of his neighbors by a vote largely above his party strength. Whatever there may have been of the scandal existing before that it is not just, either to him or to the people now, to revive it. Public welfare requires that he be judged by his public record, by his capability and fitness for the discharge of responsible and important public duties, and not by old and exploded private scandal. Very respectfully yours, (Signed) T. A. HENDRICKS.

WAR NEWS.

LONDON, Aug. 27.—Semi-official advices from China report that during the bombardment of Foo Choo a French officer of high rank was killed. Only three Chinese gunboats were destroyed. A special from Shanghai says that the arsenal at Foo Choo is in ruins and 1,800 workmen out of employment. The arsenal cost 42,000,000 francs and the arms and munition destroyed were valued at 140,000,000 francs.

THE CHINESE DO GOOD WORK.

LONDON, Aug. 28.—The Times' dispatch from Foo Choo this afternoon says: The French ironclads entered the mouth of the river this afternoon at two o'clock. The white fort opened fire with Krupp cannons while the ships were three miles away. After an hour's engagement the French retired. The Chinese fire was good.

THE CHEROKEE NATION.

NEW ORLEANS, Aug. 28.—A Times-Democrat Indian Territory special says: The feeling among the Cherokees regarding the present state of their national affairs is assuming considerable proportions. Fears are expressed that in the near future they will lose identity as a nation. Prominent Cherokees strongly urge holding a mass convention next September. They say the meeting will devise means of extricating the Cherokee nation from the embarrassments it is under as a government. The fence question and a monopoly of lands will also be considered. The citizenship and intrusion laws are regarded as inadequate and will receive attention previous to the railroad bills which passed the last Congress and which is regarded as having usurped and trampled upon Cherokee rights. The report of the delegation from Washington casts a gloomy outlook over the future of the Territory unless immediate action is taken by the masses.

BONUS NEWS CONTRADICTED.

GUAYMAS, Aug. 28.—Your correspondent has seen the telegrams published in the Chronicle, via Chicago, and purporting to have been sent from Hermosillo, Sonora, and

has taken the trouble to hunt the matter up. No such telegram has gone over the wires from Hermosillo, and there is no effort on the part of the authorities at Hermosillo or here to suppress the publication of the number of deaths. On the contrary, they are affixing and publishing them every week. There has not been a single case of yellow fever at Ortiz or any of the other stations along the line, there are no deaths among the people from yellow fever. There have been no cases of yellow fever in Guaymas for more than one month past. The telegram published is of whole cloth. There are a few sporadic cases at Hermosillo, but Guaymas is in her usual healthy condition. Heavy rains are prevailing all over the State.

WAR FORMALLY DECLARED.

PARIS, Aug. 28.—A dispatch from Hanoi to-day states that General Milot has taken necessary measures for repelling the expected Chinese invasion. It is rumored in Paris that China has made a formal declaration of war and notified the powers to that effect. French newspapers are indignant at the statements made by the London Times respecting the bombardment of Foo Choo.

FATHER JUNIPERO ANNIVERSARY.

MONTREY, Aug. 28.—Early this morning a throng of people took the road from town to San Carlos mission where the celebration of the death of Father Junipero Serra was to be observed. The weather was all that could be desired. The first ceremony of the day was a blessing on the restored Mission Church. This involved a procession of the clergy, headed by a corymb and crucifix. Bishop Alemany blessed the church sprinkling it with holy water according to the custom of the Roman Catholic Church. Following the blessing of the church came the celebration of the Pontifical requiem mass. This was celebrated by Bishop Alemany as celebrant, the other principal officers of the mass being Father Burgmeier as assistant priest, Father Romeo as assistant deacon and Father Codina as sub-deacon. Following the impressive mass came a sermon in Spanish by the Rev. J. Adam V. G. of Los Angeles, the speaker concluded by hoping that before the next centenary of the padre he would be canonized. The reverend preacher's discourse was listened to attentively by all. A religious oration was delivered by Archbishop Riordan of San Francisco who began by alluding to the benefits arising from and the character of missionary churches. He proceeded to show how earnest priests went forth in a strange land to build up what they called Christendom. He concluded by predicting that the spirit of padre Serra would live forever. The oration was full of eloquence and spirit. This concluded the religious exercises in the church. It was high noon and the throng turned to the baroque, the restaurant and booths. Two hours of feasting and merry laughter and pleasant converse was enjoyed and then the civic services were opened outside of the church by Senator R. F. Deleville, the orator of the afternoon. James G. McDonald of San Francisco was next announced as reader of the day. He read a poem entitled "Inspiration" by Miss Harriet M. Skidmore of San Francisco. This concluded the memorable services, and the multitude returned to Monterey satisfied and pleased with the trip and thoroughly enjoyable and interesting occasion.

STARVING APPRAIS.

DEMING, N. M., Aug. 29.—In a quarrel in Hill's saloon, Frank Thurmond stabbed and probably fatally injured Dan Baxter. Thurmond is well known on the Pacific Coast, especially in Arizona, where he has a brother. Baxter is from Washington, D. C., where his father holds a Government position. Both men had been drinking and were on apparently friendly terms. The cause of the quarrel is unknown. Baxter is not expected to live, and Thurmond has been released on \$5,000 bail.

News was received here to-day of the killing of a miner in Lake Valley. No particulars could be learned.

AWAY AHEAD OF TURNER.

PORT PLAIN, N. Y., Aug. 29.—Kate Smolze is in about the same condition as the past few days, apparently not much weaker. She is conscious and converses with her family, but takes no nourishment and desires none, and swallows no drink of any kind. This is the one hundred and sixty-seventh day of her fast.

A BLOODY BATTLE.

CHARILLOS, PERU, via Galveston, Aug. 29.—In Lima yesterday there was a storm of bullets for over six hours. Caceras entered the city with his rabble yelling and firing. The night before all the Government troops were withdrawn into the cuartel and palace, and the entry of Caceras, although not unexpected, was somewhat of a surprise. His men captured the cuartel and the churches of Mercedes and San Augustine from which they kept up a fusillade. They also attacked the Guadalupe railroad station. About 150 persons were killed in Mercedes and Codelones streets and near the palace square, where the fire was hottest. Finally the Government troops made a sortie and at last succeeded in driving out the mob. Caceras was accompanied by 80 horsemen. They appeared to have been traveling all night and were in no

condition to fight with troops well fed and fresh from their beds. Three hundred prisoners were taken but Caceras escaped. The German proprietor of a cigar store was killed while looking from a balcony. All the telephone wires were cut for miles out of the city and no trains run. Nothing occurred at Charillos. The cable and staff are all right. Heavy guns have been heard for some hours, but no news as to the locality of the firing has been received up to 9:30 a. m. Quiet this morning in Lima, the dead men and horses are being removed and the pools of blood cleaned up. The fight in San Augustine's church proceeded with closed doors. Caceras is said to have 1,300 disciplined troops who were to have attacked Calloa. These may return. Last night there were no guards in the street, all were in the cuartel and palace.

DIED OF HIS WOUND.

DEMING, N. M., Aug. 30.—Daniel Baxter, a well known barkeeper of this place, died to-day from a wound received a few nights since in a difficulty with Frank Thurmond, one of the proprietors of the Caliente saloon. All the particulars are not learned, but it is said that both were much under the influence of liquor and were quarreling over a game of billiards, when, without any provocation, Thurmond drew a penknife, cutting Baxter in the abdomen, inflicting a wound several inches in length.

THE OFFICIAL REPORT.

PARIS, August 30.—The official report of the bombardment of Foo Choo Saturday, received from Admiral Courbet, is as follows: "Foo Choo, Sunday morning, August 24.—A good beginning has been made. We opened fire yesterday and in four hours nine Chinese men of war and twelve junks were sunk and the Krupp battery commanding the arsenal silenced. Our loss is six killed and twenty-seven wounded. The fleet suffered no serious damage except that a boiler of a torpedo boat exploded. The Chinese losses are heavy. During the night the fleet was beset by burning wrecks and logs. The torpedo cutters will clear all this way to-day, and after we have bombarded the arsenal. We shall not leave the river before the 29th or 30th. The officers and men are animated with great ardor. One of our torpedo boats sank a large Chinese cruiser. The vessels which took part in the action were the Volta (which hoisted my flag), the Truist, Eurydice, Triumphant, Villars, Astic, Esting, Lyra and Viper with two torpedo boats."

BUSINESS FAILURES.

NEW YORK, Aug. 30.—Business failures for the last seven days reported to Dunn's mercantile agency, are in the United States 180, and in Canada 16.

DEATH IN A CIRCUS CAR.

DENVER, Aug. 30.—The following is a list of the sufferers by the circus car fire, now in the St. Luke's hospital in this city: E. E. Fairbanks, age 22, arms legs and face badly burned; Albert Border, aged 17, arms and face badly burned; Thomas Golden 17, Detroit, Mich., very badly burned on back and legs; N. J. Zimmerman, 18, St. Louis, arms legs face and back fearfully burned; Frank King, Menominee, Mich., badly burned about his hands and feet; Michael Meglin, 28, Holton, Mich., face and hands badly burned; Hugh O'Donnell, 56, New Orleans, badly burned on his face hands and back, he will probably die. The number rescued agree that in the car there were two barrels of gasoline, which were exploded either by sparks from the engine or from a naked torch with which the men were accustomed to light themselves to bed. The coroner impounded a jury, but they were unable to learn the cause of the fire or any important facts, as the managers with the rest of the company left immediately to fulfill an engagement. It is impossible to get a correct list of the dead, as many were engaged but a day or two, and whose names are unknown. The names of the dead so far as can be learned, are as follows: Alex. McCleod, Marinette, Wisconsin; Thomas McCarthy, Independence, Iowa; John Kelly, New York city, and others known as Silver Tom, Windy Frenchy, Frank, George, Smith and one unknown.
